- Hospitals will be expected to submit information regarding selecting enhanced reporting entities **by July 1, 2015**
- Please refer to Webinar 6: Project Partners and Attribution and Webinar 9: Performance Measurement

## Survey Review: April 2015 Enhanced Reporting Partners

### ➤ Section II: Project Implementation- *Support*

- Of the 43 hospitals that submitted a response, 32% are intending to add enhanced reporting partners to their program by July 1, 2015.
- This is not a requirement for continued participation in the NJ DSRIP program, but a desired enhancement for the program overall.

## Monthly Survey Review: LC Aggregate Over Time

### ➤ Section III: Project Implementation- *Percentage of Stage Completion*

\*NR- 1 hospital

## Monthly Survey Review: April 2015 Comparison

### ➤ Section III: Project Implementation- *Tracking*

## Survey Review: April 2015 Program Enrollment

### ➤ Section IV: Project Implementation- *Observations*

- This is a monthly snap-shot from the hospitals to their current attributed enrollment of Low Income population patients in their NJ DSRIP project program.
  - Enrollment was captured as a range along the X axis. Number of hospitals per range on the Y axis.
  - “NR” were from completed surveys where the hospital indicated it was not applicable at this time or the cell was left blank.
  - Zero was captured where a zero was entered into the survey.
- The intent will be to report the most recent 3 months of information at a time . March 2015 was the first time this information was requested on the LC survey.

## LC 1 Monthly Survey Review: Asthma/ Pneumonia

- Section III: Project Implementation- Tracking

Please be sure to reflect the correct completion percentage on your surveys.

## LC 1 Monthly Survey Review: Asthma/ Pneumonia

### ➤ Section IV: Observations

#### Implementation Challenge(s)

- “Patient and provider compliance with interventions and lack of engagement for home visits continue to be a stumbling blocks. Since the Meridian Health system is moving towards replacing it current electronic medical record system resources are not being allocated to make any major changes in what is currently available i.e. discharge instructions or patient education materials.” *Jersey Shore Medical Center*

#### Suggestions to Overcome Barrier(s)

- “A new pediatric order set is now in place making it easier for hospitalists and residents to order appropriate therapy, this was not consider a major change. We are starting a new QI project in the ED to facilitate referrals to program and distribution of more Pediatric specific and practical education materials.” *Jersey Shore Medical Center*

## LC 1 Monthly Survey Review: Asthma/ Pneumonia

### ➤ Section IV: Observations

#### Notable Success

- “We have educated approximately 220 adult/pediatric asthma inpatients and 665 adult/pediatric ED patients since our pilot program began on 09/08/2014.” *St. Joseph’s Hospital Medical Center*

#### Lesson(s) Learned/Best Practice(s)

- “Schools are great for program enrollment opportunities vs hospital discharge process. Engagement of family and school nurses are essential for success. Also, the advantage of using spacers instead of peak flows for those with asthma.” *Jersey City Medical Center*
