

Welcome to the New Jersey DSRIP Learning Collaborative

New Jersey Department of Health (NJDOH)

February 11, 2016

Learning Collaborative Session Objectives

- ✓ December LC Survey Response Review
- ✓ Future of the Learning Collaborative
- ✓ Future Deliverables in DY4
- ✓ Hospital-Led Presentations
- ✓ Q&A

December LC Survey Response Review

Project Partner Engagement Needs Results

The future of the Learning Collaborative

- Today's meeting 2/11/2016 is the last scheduled monthly Learning Collaborative meeting for the remainder of the Demonstration (February 2016 – June 2017)
- Starting in March 2016, NJ DSRIP team will host one on-site Learning Collaborative per quarter.
- Quarterly onsite meetings will continue to be the second Thursday of the last month of the quarter held at the New Jersey Hospital Association from 2:00 p.m. to 4:00 p.m.

DY4	March 10, 2016
DY5	June 9, 2015 September 8, 2016 December 8, 2016 March 16, 2017

The future of the Learning Collaborative

- Please keep in mind that hospitals will continue to report on Stage 2 Activity 6 – Provide feedback to the Learning Collaborative.
- Stage 2, Activity 6 is a quarterly activity that must be completed each quarter in order to receive funding tied to this activity.
- On a quarterly basis, your hospital must document that the following minimum submission requirements were met:
 - Documentation supporting participation with the New Jersey Learning Collaborative such as copies of correspondence and meeting attendance/attendees
 - Summary of Learning Collaborative engagement and results

The future of the Learning Collaborative

- As the State will only be conducting one Learning Collaborative per quarter, it is essential your hospital attend the quarterly on-site meetings to receive DSRIP updates and have the opportunity to collaborate with your peers.
- Additionally, it is strongly recommended that your hospital consider either leading or joining a hospital-led learning collaborative if you have not already done so.
 - Documentation from a hospital-led learning collaborative can be submitted to show achievement of Stage 2, Activity 6--Provide feedback to the Learning Collaborative if the documentation shows the minimum submission requirements were met.

Databook Chart/EHR Update

- Added to DSRIP website Friday, January 29th (<https://dsrip.nj.gov/Home/Resources>)
- Places to look to best understand changes
 - Check the revision log to see which measures have been discontinued
 - Check the redline version of Databook to see if any measure logic changed
 - Look in Appendix A for fully expanded Value Sets to use in measure calculation (ICD-10 included)

Attribution and Performance Reporting

- New attributed patient rosters expected the middle of February
- Attribution period: Jan 2014 – Dec 2015 (2 year lookback)
- Patient rosters
 - Separate rosters sent to hospitals and all reporting partners
 - Each roster is filtered to include only patients who have received services at the respective facility

Attributed patient has a service with the provider?		Attributed patient on roster?	
Hospital	Reporting Partner	Hospital	Reporting Partner
Yes	Yes	Yes	Yes
Yes	No	Yes	No
No	Yes	No	Yes
No	No	No	No

Measure Achievement Review

Stages 3 and 4 Semi-Annual Measures

Performance Period: January – June 2015

Introduction

- Hospital payments for DY4 are based on hospital achievement of Stage 1 through Stage 4 activities and performance measures as defined in the Funding and Mechanics Protocol.
(<https://dsrip.nj.gov/Home/Resources>)
- Stage 3 and 4 measures are reported either annually or semi-annually depending on the measure.
- Payment coincides with the measure reporting frequency.

Example: Measure Results page

(<https://dsrip.nj.gov/Secure/MeasureResults>)

- MAV = Maximum Achievement Value or optimal achievement
- TAV = Total Achievement Value or actual achievement

Measures Results Landing Page (Level 1)

- Stage 3: MAV = 1.0 TAV = 0.0 *Note: First indication that full achievement was not met.*
- Stage 4: MAV = 2.0 TAV = 2.0

The information below represents MMIS and Chart/EHR measure results for your review. To view the measures associated with a section, please click the plus (+) sign to expand the group. Expected Improvement Target Goals (EITGs) associated with Pay for Performance (P4P) measures will be calculated from Improvement Target Goals (ITGs) which were selected by the Quality and Measures Committee (QMC) and are pending approval by CMS. Once approved, EITGs will be displayed on this site. Pay for Reporting (P4R) measures display the median value of data collected from project or DSRIP participating hospitals to provide context to the results. This is provided for informational purposes only.

Hospital Achievement Summary		
	Maximum Total Achievement Value	Total Achievement Value
Stage 3 Measures	1.0	0.0
Stage 4 Measures	2.0	2.0

Stage 3 details (Level 2)

- 1 Pay for Reporting (P4R) Chart/EHR measure and 1 Pay for Performance (P4P) Chart/EHR measure are shown.
- The P4P measure result is a red value (0.000). This indicates that the June 2015 Expected Improvement Target (EITG) was not met (3.720) .
- The EITG column shows the next reporting period's improvement target (7.291).
