

## May 2019 DSRIP Announcements & Updates

### Dear DSRIP Program Participants,

First, we want to thank you for your diligent work to complete and submit DY8 Renewal Applications, DY7 SA2 Progress Reports, SRWs, MVTs, and CLABSI Attestations last month. The NJ DSRIP Team has begun our review of your submissions and will inform you if any further action is required throughout the review process.

Please continue reading below for DSRIP announcements and updates for the month of May.

- [CLABSI DY6 Supplemental SRW & MVT: Due May 17<sup>th</sup>](#)
- [May DSRIP Webinar: May 9<sup>th</sup> @ 10am](#)
- [Action Required! Hospital CEO/President Contact Information Survey](#)
- [Register for the June 26<sup>th</sup> In-Person Learning Collaborative!](#)
- [2019 Webinars: Call for Presentations](#)
- [Claim your CME Credit from the 3/20 Learning Collaborative](#)
- [April Webinar Materials: Available on the NJ DSRIP Website](#)
- [DSRIP Dashboard: Monthly User Tip & DY7 SA1 Updates](#)

### Reminder: CLABSI DY6 Supplemental SRW & MVT

If your hospital submitted a CLABSI Attestation that indicated the hospital incorrectly reported DSRIP measures 21 and/or 63 in DY6, you must recalculate and resubmit your DY6 data in a manner that conforms to the Databook requirements.

Hospitals needing to resubmit DY6 results must complete the *DY6 Supplemental CLABSI Standard Reporting Workbook* and the *DY6 CLABSI Measure Validation Template*. Hospitals should access these templates via the NJ DSRIP SFTP (<https://sftphealth.pcgus.com>) and submit via SFTP by **May 17, 2019**.

No further action is required if your hospital's CLABSI Attestation indicated that your hospital reported denominators for DSRIP 21 and 63 that aligned with the published Databook specification or if your hospital had no numerator CLABSI events in DY6.

### **May DSRIP Webinar: May 9<sup>th</sup> @ 10am**

The May DSRIP webinar will take place on May 9th from 10-11am. Note that the webinar may extend beyond 11am to accommodate all participant Q&A. This webinar will be recorded and posted online after the event. The agenda will include, but is not limited to, the following topics:

- April 30th Deliverables – Review of Next Steps
  - Signed approval of submitted DY8 Renewal Applications
  - CLABSI Attestation Process
- Performance Dashboard Updates

There may be an extended time for Q&A during this webinar. Hospitals are encouraged to submit questions on any aspect of the DSRIP program in advance of the webinar to enable us to provide detailed responses during the live event. Please email all questions to [njdsrip@pcgus.com](mailto:njdsrip@pcgus.com) with the subject line "May 9<sup>th</sup> Webinar".

Please click on the [WEBEX EVENT ADDRESS](#) for access to the event on May 9th. A detailed program announcement will be emailed prior to the event.

### **Action Required! Hospital CEO/President Contact Information Survey**

As part of the DY8 Renewal Application process, participating NJ DSRIP hospitals will receive a DY8 Renewal Application Approval Letter once all submission materials have been reviewed and approved. When hospitals receive the letter from NJ DSRIP, hospitals are required to review the letter, have their Hospital CEO/President sign the letter, and email a copy of the signed letter to [NJDSRIP@pcgus.com](mailto:NJDSRIP@pcgus.com) within 15 business days of initial receipt. To ensure we have your hospital's appropriate CEO/President contact information, please have a member of your hospital's NJ DSRIP team complete this [survey](#) by Friday, May 17, 2019.

### **June 26<sup>th</sup> In-Person Learning Collaborative**

The next In-Person DSRIP Learning Collaborative will take place on June 26<sup>th</sup> at the New Jersey Hospital Association Conference Center in Princeton, NJ. The focus of this meeting will be on stakeholder engagement, specifically engaging institutional leadership, internal staff that support quality initiatives and external partners (i.e. primary care practices or and other reporting partners). The DSRIP team recognizes that projects are already underway, and stakeholders and teams have already been engaged. We are developing the content for this session with this in mind. We aim to help you evaluate the current state of your stakeholder relationships and provide tools that you can apply to improve your current program as well as future endeavors. A detailed save the date with specific learning objectives, an agenda and registration link will be released shortly.

### **2019 Webinars: Call for Presentations**

Thank you for indicating via the webinar polls which measures you would like the DSRIP team to focus on in future webinar specification/best practices review. Based on your poll results, the following DSRIP measures will be reviewed on upcoming webinars throughout 2019:

<b>Measure Name</b>	<b>DSRIP #</b>
Heart Failure Admission Rate	45
COPD Admission Rate	32
30-Day All-Cause Readmission Following Acute Myocardial Infarction (AMI) Hospitalization	1
Ambulatory Care – Emergency Department Visits	8
Percentage of Live Births Weighing Less Than 2,500 grams	67

### **Last Chance to Claim CME Credit for March 20<sup>th</sup> Learning Collaborative**

For those who attended the In-Person Learning Collaborative on March 20<sup>th</sup>, don't forget to claim your CME credit. To receive AMA PRA Category 1 Credits™ for this activity, you must have attended the program and completed an attestation form on BUCME.org. To claim credit, please proceed to [bucme.org/getcredit](http://bucme.org/getcredit), and enter activity code: MLS19379-01.

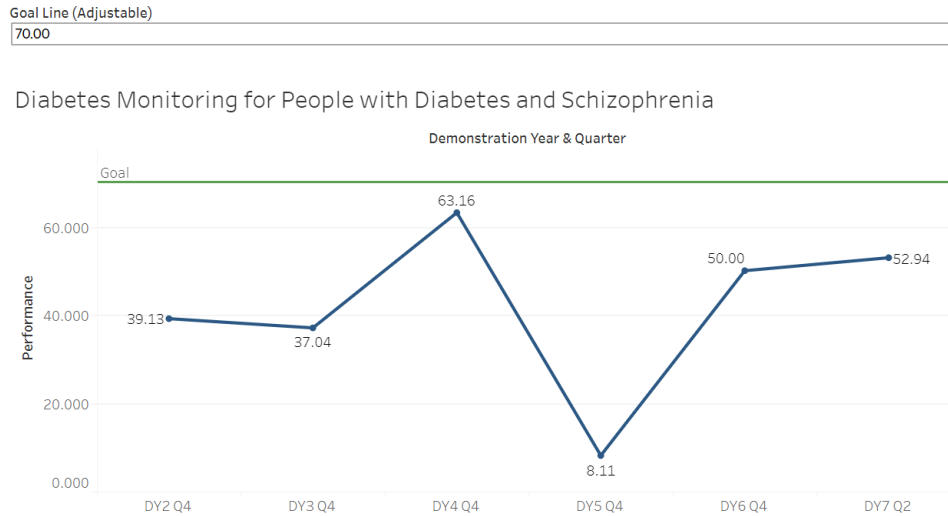

### **April Webinar Materials: Available on the NJ DSRIP Website**

The April 9<sup>th</sup>, 2019 DSRIP webinar recording, slides and Q&A have been posted to the [Learning Collaborative](#) webpage.

### **DSRIP Dashboard: Monthly User Tip & DY7 SA1 Updates**

### May 2019 Dashboard user tip:

The Dashboard offers a do-it-yourself goal visualization tool. To access this tool, navigate to the Sandbox tab of the Dashboard and scroll down to the line chart. Just above the chart, you should see a box titled “Goal Line (Adjustable).” This tool allows you to type in any number, such as your hospital’s EITG, hit enter, and then quickly visualize how far your hospital is from achieving its goal.

As DY7 SA1 measures are continually calculated, the dashboard will be updated to reflect these new performance scores. Recent additions to the dashboard are:

- DSRIP #4: 30-Day All-Cause Readmission Following Pneumonia Hospitalization
- DSRIP #16: Breast Cancer Screening
- DSRIP #25: Child Immunization Status
- DSRIP #35: Diabetes Screening for People with Schizophrenia or Bipolar Disorder who are Using Anti-Psychotic Medications (SSD)
- DSRIP #36: Diabetes Short-Term Complications Admission Rate
- DSRIP #38: Engagement of Alcohol and Other Drug Treatment
- DSRIP #52: Initiation of Alcohol and Other Drug Treatment
- DSRIP #90: Asthma Medication Ratio
- DSRIP #92: Diabetes Monitoring for People with Diabetes and Schizophrenia

### Questions?

If you have any questions or concerns, please email [NJDSRIP@pcgus.com](mailto:NJDSRIP@pcgus.com).

Thank you,  
NJ DSRIP Team
